**Revised Call for Nominations**

**Revised Nomination Deadline: July 15, 2020**

We are pleased to announce that the Organization and Management Theory (OMT) division will be holding a virtual Doctoral Student Consortium as part of this year's Academy of Management Annual Meeting. The goal of this consortium remains the same: orienting doctoral students who are broadly interested in organizations and management as they enter the final phase of their doctoral programs. It helps prepare them for the job market and plan future careers. We aim to help students make the most of their doctoral programs, advance and publish their research, find academic jobs, manage their early career and, perhaps most importantly, establish professional networks with colleagues who share research interests. We will also work to consider the distinct context of the job market since coronavirus.

The consortium will include a combination of the following:

1. Live panels/presentations followed by breakout room discussions. The formal presentation portion will take place on the originally scheduled date of August 7 and will be recorded and posted for those who cannot attend live.
2. Live roundtable discussions around research and teaching done through breakout rooms on the originally scheduled date of August 7. We will schedule these in multiple time-zones for different groups of mentors and participants (e.g., North America, Europe and Asia friendly times) to optimize participation.
3. Small group (1 mentor, 2 or 3 students) mentoring: We will match mentors with two or three students for mentoring which will be scheduled at a time that works for everyone in your group.
4. Randomly assigned café or drink chat sessions on August 7. Again, these will be in multiple time zones to accommodate our members.

Over 30 faculty members remain committed to participating in this event. Many have been editors for leading journals and won prestigious research and teaching awards. They represent a range of career levels and geographies and will provide diverse perspectives. The roster includes:

- Beth Bechky, New York U.
- Christine Beckman, U. of Southern California
- Emily Block, U. of Alberta
- Raina Brands, London Business School
- Joe Broschak, U. of Arizona
- Diane Burton, Cornell U.

The consortium is designed to allow for high levels of faculty-student interaction. In order to maintain a high faculty/student ratio, space for this consortium remains limited. Interested students must be nominated by their schools and must be OMT members (either already or by joining now).

Preference will be given to those students who have progressed to the dissertation stage and are either on or considering being on the job market in the coming year. The new nomination deadline is **July 15, 2020**.
