Paul Adler's recent book, *The 99 Percent Economy: How Democratic Socialism Can Overcome the Crises of Capitalism* (Oxford University Press, 2019), analyzes various economic, political, environmental, & social crisis points in the U.S. today, traces them back to the basic structure of capitalism, & outlines a radical "democratic socialist" alternative.

In this webinar Paul will present this "99% argument." He will be joined by a panel of internationally renowned scholars exploring some of the key possibilities and challenges of a proposed radical democratic socialist alternative. They will identify common ground for a CMS critique of contemporary capitalism & for a vision of a better future.
